Riven Indian Sandstone

Sandstones are an excellent paving material formed millions of years ago from small size coloured grains of sand and quartz which are bound together with natural cements such as silica, and then compressed over time into the hard stone paving that we see today.

These 4 colours have a riven surface which is a tradtional surface for paving, giving it a classic look.

Fellside (Raj Green)

A beautiful top grade and extremely popular Indian Stone. Each paving stone is unique with differing riven profiles and tonal variations of greys and light browns.

This is a very appealing stone with all sides cut naturally with quarry fettled edges into uniform sizes for ease of laying, and creating a natural, hard wearing, and pleasing look to your garden.

Rustique (Sunset Buff)

A beautiful top grade natural stone
paving slab, calibrated to 22mm
thickness, for ease of laying, (also known
as Indian stone paving slabs, or Sunset
Buff), when only the best will do.
This is our most popular natural stone
paving with tonal variations of warm
buffs and greys with brown hues bringing
subtle colouring and style to your garden.
All sides are cut naturally with quarry
fettled edges into uniform sizes for ease
of laying.

Silver Grey (Kandla Grey)

A beautiful top grade natural sandstone paving slab (also known as Indian stone paving slabs), when only the best will do.

Each paving slab is unique with tonal variations of greys and silvers, with differing riven profiles.

All sides are cut naturally with quarry fettled edges into uniform sizes for ease of laying, and circles are also available which can either be incorporated in the patio squared off, or as a stand alone feature.

Rosemount (Modak)

A beautiful top grade natural stone paving slab (also known as Indian stone paving slabs) when only the best will do. Calibrated to 22mm thick for ease of laying, each paving slab is unique with tonal variations of warm reds, oranges and buffs on a differing riven profile. All sides are cut naturally with quarry fettled edges into uniform sizes for ease of laying.

Quartzina Limestone Paving

A beautiful top grade natural limestone paving slab when only the best will do. Each paving slab is unique with small tonal variations and a differing surface profile of black limestone.

All sides are machine cut smooth into uniform sizes for ease of laying.

Kota Blue Limestone

A beautiful top grade natural limestone paving slab when only the best will do. Each paving slab is unique with small tonal variations and a differing surface profile of steel blue limestone.

Similar to Silver Grey Sandstone but with a flatter surface.

All sides are machine cut smooth into uniform sizes for ease of laying.

Diamond Sawn straight edges with a honed finish provide a smooth and flat surface creating a contemporary look which is suitable for any surrounding. A honed finish is achieved by polishing & sanding the surface using abrasives.

Rainbow Sawn & Honed

This top of the range Indian Sandstone Paving has been diamond sawn then calibrated and honed to leave a rich, vibrant and beautifully coloured appearance with some surface quartzite that sparkles in the sunshine.

Rainbow is a premium grade paving that brings the warmth and charm of quality natural stone into your garden. The paving edges are diamond sawn smooth.

Pure Mint White Sawn & Honed

This top of the range Indian Sandstone Paving has been diamond sawn then calibrated and honed to leave a smooth matt appearance with some surface quartzite that sparkles in the sunshine.

Pure Mint White is a premium grade paving with light pastel shades and subtle veining, which provides a tasteful, refined and elegant backdrop to any garden. If you are looking for the ultimate contemporary patio, then Pure Mint White provides this. The edges are diamond sawn smooth.

Buff Sawn & Honed

Buff Sawn & Honed (Raj smooth blend) has light tones of greys, light browns and buffs.

This top of the range Indian Sandstone Paving has been diamond sawn then calibrated and honed to leave a smooth matt warm golden buff coloured appearance with some surface quartzite that sparkles in the sunshine.

Buff sawn and honed is a premium grade paving that has subtle veining, and provides a tasteful, refined and elegant backdrop to any garden. The edges are machine cut smooth.

Suitable inside or out.

Vitrified Porcelain Paving

Porcelain paving is manufactured with special clays that are kiln fired to a temperature of 1400 degrees, and then ground and polished to ensure that each tile has sharp, perfect edges. It is an extremely high performance solution to hard paving areas as it remains unchanged over time and is resistant to sun, frost and is non slip (R11 standard)

Argento

With it's high anti-slip properties, it is almost impossible to differentiate Argento Porcelain Paving outdoor tiles from natural stone. With the colours, texture and feel that one would expect from such a top quality product as well as it's hardwearing properties, it is hard to find a better paving slab solution.

It has a textured surface for skid resistance, and is frost and UV resistant. This exceptional vitrified porcelain is fired at 1400°C, then rectified, and is the best quality available in the world today.

Nero

Build a breathtaking terrace with Nero Porcelain Paving; its low maintenance qualities in stunning black will enhance your surroundings as you relax in your garden.

In a new design for 2023, Nero is virtually indistinguishable from natural stone, with the colours, texture and feel that one would expect from such a top quality product. This exceptional vitrified porcelain is fired at 1400°C, then rectified, and is the best quality available in the world today.

Bianca

Our most popular Porcelain Paver is the beautiful Bianca, with its light tones it's virtually indistinguishable from real natural stone. It really does have the colours, texture and feel of a top quality product. It has a textured surface for skid resistance, and it is both frost and UV resistant. This exceptional vitrified porcelain is fired at 1400°C, then rectified, and is the best quality available in the world today.

Pietra

In a new design for 2023, Pietra porcelain pavers are virtually indistinguishable from natural stone, with the multi toned colours, texture and feel that is identical to silver grey sandstone, They have a textured surface for skid resistance, and also frost and UV resistant. This exceptional vitrified porcelain is fired at 1400°C, then rectified, and is the best quality available in the world today.

Naranja

Create an amazing patio that requires minimal maintenance with this stunning porcelain paver. Naranja paving slabs are practically indiscernible from real natural stone, with beautiful colours, and a texture & feel that one would expect from such a high quality product. A textured surface for skid resistance, and frost and UV resistant.

This exceptional vitrified porcelain fired at 1400°C, then rectified, and is the best quality available in the world today.

Quartz

Quartz porcelain paving slabs in a new design for 2023 are virtually indistinguishable from natural stone, with the multi toned colours, texture and feel of a silver sandstone. Quartz porcelain has a textured surface for skid resistance, and also frost and UV resistant. This exceptional vitrified porcelain is fired at 1400°C, then rectified, and is the best quality available in the world today.

Toscana

New for 2023 Porcelain Paving Toscana is virtually indistinguishable from natural stone, with the colours, texture and feel that one would expect from such a top quality product. Similar to Bianca but a little more whiter in colour. A textured surface for skid resistance, and frost and UV resistant. This exceptional vitrified porcelain is fired at 1400°C, then rectified, and is the best quality available in the world today.

27

Vanille

The popular Antique Vanille porcelain patio slabs are virtually indistinguishable from French Limestone, with the colours, texture and feel that one would expect from such a top quality product.

This exceptional vitrified porcelain is fired at 1400°C, then rectified, and is the best quality available in the world today.

Supplied in easy to lay size 60x40 French Limestone with authentic quarried edges

Gris

Antique Gris porcelain pavers are virtually indistinguishable from natural stone, with the colours, texture and feel that one would expect from such a top quality product. This exceptional vitrified porcelain is fired at 1400°C, then rectified, and is the best quality available in the world today.

Supplied in easy to lay size 60x40 with authentic quarried edges

Sabbia

Antique Sabbia porcelain paving slabs are virtually indistinguishable from French Limestone, with the colours, texture and feel that one would expect from such a top quality product. This exceptional vitrified porcelain is fired at 1400°C, then rectified, and is the best quality available in the world today.

Supplied with authentic quarried edges
Benefits of porcelain paving include high
resistance to:

*Frost and extremely cold weather.

*UV Light - Fade resistant, the colour is locked in for many years to come.

*Ultra low water absorption - Which helps resist stains from spillages, or moisture, which impedes moss and algae, penetrating the surface.

*Withstands high breaking loads, over 1000kg per slab.

*Slip resistance and does not shrink, warp, or rot.

Pepe

Virtually indistinguishable from French Limestone, these porcelain patio slabs have the colours, texture and feel that one would expect from such a top quality product. This exceptional vitrified porcelain is fired at 1400°C, then rectified, and is the best quality available in the world today.

Supplied with authentic quarried edges
Benefits of porcelain paving include high
resistance to:

*Frost and extremely cold weather.

*UV Light - Fade resistant, the colour is locked in for many years to come.

*Ultra low water absorption - Which helps resist stains from spillages, or moisture, which impedes moss and algae, penetrating the surface.

*Withstands high breaking loads, over 1000kg per slab.

*Slip resistance and does not shrink, warp, or rot.

Concrete Paving

These highly popular Yorkstone Paving Slabs have a traditional Riven face and irregular sides that are reminiscent of authentic quarried Yorkstone.

Grey basic paving slabs, suitable for shed bases, utility areas etc 600mm x 600mm x 40mm.

Sandstone Setts, Porcelain Edging & Circles

Natural Stone setts available in a riven handcut edge, Great for incorporating into your existing patio, creating a cobbled driveway or simply adding a border to your garden.

Porcelain edging tiles are great for creating a border with a modern porcelain patio, while keeping low maintanence in mind.

Natural Stone Circles are 2.7m and look great when incorporated into a patio area or on there own for an outside dining area

Fellside Setts

Cobble stone setts in sizes 100x100mm.

With a riven surface and handcut edges, fellside setts really give a traditional finish.

These setts can be used as a border or incorporated into the patio. They can complement the same type of paving or use a different type for a contrast.

Porcelain Nero Setts 200 x 100mm
Thickness: 20mm
Suitable as a border for paving or as setts
in a courtyard style.
Hardwearing, maintenance free borders
for edging porcelain paving

Silver Grey (Kandla Grey) 2.7m Circle

Natural Stone Circles are 2.7m in diameter and look great when incorporated into a patio area or on there own for an outside dining area. Perfect for adding some curves and shape into a large patio area. With Silver Grey Each paving slab is unique with tonal variations of greys and silvers

Fellside (Raj Green) 2.7m Circle

Natural Stone Circles are 2.7m in diameter and look great when incorporated into a patio area or on there own for an outside dining area.

Perfect for adding some curves and shape into a large patio area. Fellside colour has tonal variations of greys and light

browns.

Gravels & Aggregates

Transform your garden instantly with our granites and gravels that come in a huge array of colours and shades. Granite chippings in either Red Granite or Green Granite can bring to life the dullest of gardens. Our gravels such as the popular Cotswold Buff Self Binding **Driveway Gravel is an inexpensive option to** cover pathways or drives and the chippings settle flat and is one of the hardest limestone gravels available in the UK.

York Gold Garden Gravel 20mm

York Gold Garden Gravel 20mm looks very attractive and is our most popular gravel for gardens. Used around the borders of paved areas and between paving stones, its gold, brown and white stones make it a very hard wearing durable gravel that is perfect for paths, driveways and all landscaping projects.

Delivered to you in bulk bags with hiab/crane offload, which can usually be placed where you need it, in a safe and suitable place. Please be aware of other suppliers' delivery methods such as offloading with a tail lift & pump truck, as they cannot operate on gradients, slopes, up kerbs, or onto gravel, grass etc. This can often result in the customer having to pay a return delivery charge! We guarantee your delivery will have Hiab/crane offload.

On display at our AC showsite.

Artic White Marble Chippings 10-20mm

These stunning white marble chippings sparkle in the sunshine and are the purest white available in the UK. A perfect decorative gravel for rockeries, driveways, paths, and borders bringing a beautiful bright look to your garden.

Delivered to you in bulk bags with hiab/crane offload, which can usually be placed where you need it, in a safe and suitable place. Please be aware of other suppliers terms and conditions when they offload with a tail lift & pump truck, as they cannot operate on gradients, slopes, up kerbs, or onto gravel, grass etc This can often result in the customer having to pay a return delivery charge! We guarantee your delivery will have hiab/crane offload.

Cornish Plum Slate Chippings 40mm

Aesthetically pleasing, Plum slate chippings can help to provide a low maintenance garden with a high quality feel. This provides the benefits of less hard work and more spare time to relax and enjoy the environment you have created.

The slate chippings can be added to borders to give long lengths of ordered colour to the garden. With its beautiful plum colouring the contrast against any greenery planted along the borders will be absolutely exquisite. They are also not too big to use around the base of trees to make them look even more distinguished and attractive.

An amazing quality of plum slate chips is their incredible ability to change into a superb dark red colour when wet which can provide joy and spread happiness even on the darkest, gloomiest and greyest of days.

Cotswold Buff - Self Binding Driveway Gravel

Cotswold Buff is currently one of the more popular gravel chippings. It is an angular mellow cream limestone gravel which is perfect for paths and driveways as it compacts with use preventing it from moving around and spreading out. It is often referred to as a "self binding gravel".

This top quality Cotswold Buff is one of the hardest limestones in the UK, and will provide a brighter/warmer feel for any landscaping project, and is perfect for any jobs where low prices are important.

Delivered to you in bulk bags with hiab/crane offload, which can usually be placed where you need it in a safe and suitable place. Please be aware of other suppliers' terms and conditions when they offload with a tail lift & pump truck, as they cannot operate on gradients, slopes, up kerbs, or onto gravel, grass etc. We guarantee your delivery will have hiab/crane offload.

Cumbrian Graphite Slate Chippings 40mm

Cumbrian grey slate chippings are perfect for paths, borders and driveways, and also look good with any surrounding features to enhance all gardens. Sized at 40mm down, these beautiful slate pieces create a contemporary look and the colour turns into a stunning black when wet, making them perfect for ponds and rock pools.

Delivered to you in bulk bags with hiab/crane offload, which can usually be placed where you need it, in a safe and suitable place. Please be aware of other suppliers' terms and conditions when they offload with a tail lift & pump truck, as they cannot operate on gradients, slopes, up kerbs, or onto gravel, grass etc. This can often result in the customer having to pay a return delivery charge! We guarantee your delivery will have hiab/crane offload.

Highland Red Granite Decorative Gravel

The beautiful colour of this Highland red granite is truly unique. A perfect decorative gravel for rockeries, driveways, paths, and borders adding warmth and colour to your garden.

Looks even better when wet with a rich colour that can brighten the dullest of areas.

Delivered to you in bulk bags with hiab/crane offload, which can usually be placed where you need it, in a safe and suitable place. Please be aware of other suppliers terms and conditions when they offload with a tail lift & pump truck, as they cannot operate on gradients, slopes, up kerbs, or onto gravel, grass etc This can often result in the customer having to pay a return delivery charge! We guarantee your delivery will have hiab/crane offload.

Monmouth Green Granite Decorative Aggregate

Monmouth green granite is an extremely hard wearing and beautiful granite decorative aggregate. Angular pieces make it suitable for driveways, paths, borders, and water features. Stylish and refined, the perfect gravel chipping for your garden.

Delivered to you in bulk bags with hiab/crane offload, which can usually be placed where you need it in a safe and suitable place. Please be aware of other suppliers' delivery methods such as offloading with a tail lift & pump truck, as they cannot operate on gradients, slopes, up kerbs, or onto gravel, grass etc. This can often result in the customer having to pay a return delivery charge! We guarantee your delivery will have hiab/crane offload.

EverBuild Path & Patio Seal 63

Jointing Compounds, Primers & Sealers

Using only trusted brands, with the best reputations supplying you with the best cost effective ways of giving that professional finish to your patio.

Pro Joint Porcelain Paving Primer 20kg Tub

An ultra-high polymer and fibre modified flexible waterproofing primer with excellent workability and adhesion properties. Applied in one coat for fast application to promote adhesion and control suction on difficult substrates such as porcelain patio slabs, concrete, ceramic tiles, indian sandstone paving slabs or setts.

This powdered primer is supplied in two

10kg bags to allow the bucket to act as the
ideal mixing vessel with the simple
addition of water.

- * One coat application to the underside of the paving
 - * Excellent workability and adhesion properties
- * Suitable for brush or roller application
 - * Can be applied in low temperatures
- * Suitable for internal or external use.
- * 2 x 10kg bags contained within the mixing tub.
 - * Tub coverage for Porcelain approximately 25 square metres

Pro Joint Porcelain Grout - 20kg Tub

Specially formulated for use with porcelain paving slabs, this Grey toned grout has been developed for joint widths 2mm - 20mm.

Ideal for internal or external use. Uses anti-mould technology with added silicon, this porcelain grout repells waterfrom the surface of the grout, while allowing vapour to pass through.

- * Professional strength grade
- * Developed for joint width 2-20mm
- * Suitable for internal or external use
 - * Water and mould repellent
- * Ready to use, two 10kg bags supplied in its own mixing tub.

Coverage: approximately 40 square metres of paving.

Colours in stock: Buff and Grey

Pave Fix Plus 15kg Buff is a simple and effective method of pointing indian sandstone patios.

Technically advanced - Pavefix Plus is a well proven product that delivers a strong, yet flexible joint that will last for years. Resistant to frost, weed penetration, and UV light

Environmentally friendly - Made from virtually 100% natural ingredients including silica sand. Easy joint meets all SUDS requirements, allowing natural drainage through the joint. It will not harm animal, fish or plant life. Available in Grey or Buff

EVERBUILD PATH & PATIO SEAL

Is an economical solvent free acrylic coating used to seal and protect paths, patios, natural stone, block paving and concrete, from the effects of sunlight, water, oil, petrol, and fungal/mould growth. The milky solution dries to a CLEAR hard wearing water repellent film which gives a low sheen, slip resistant finish which will reduce dirt pick up and faciliate easier cleaning. It is safer than solvents and is not flammable, and will not harm plants and animals when used as directed.

Seals and protects against sunlight, water, oil, petrol and mould growth.

Dries clear, low sheen, non slip finish and protection that lasts.

Light colour enhancer

Easily applied by brush or roller

Can be applied by standard low pressure garden spray, brush, mop or roller.

Contents 5 litres

Coverage - Will vary dependent upon surface, but as a guide 25 square metres Ready to use.

All deliveries within 60 miles will be delivered with our lorry, using hiab to offload gives you endless options to get the goods where you need them - over garden fences etc.

Larger orders can also be delivered nationwide using our lorry with hiab if needed. For smaller orders nationwide, we use a reputable courier using the tail lift (pallet pump truck method)

Deliveries normally occur between 7am and 4pm and are normally within 5 working days from payment of order, dependent upon the quantities ordered and the delivery area. Very occasionally deliveries can take a little longer due to stock or location issues.

You will be contacted the day before the delivery of your order. If we cannot contact you, we may still deliver your goods. Please ensure there is adequate space to offload by means of a hiab crane. Your goods will be placed within 4 metres from the delivery vehicle.

We are fully insured to offload to kerbside. If you require the lorry to go onto private property, or lift over walls, hedges etc, we will endeavour to meet your wishes. However, you will be responsible for any damages to the property, including third party damage that may be caused during this process.

Where the distance is more than 60 miles, we may use a national courier. These lorries deliver the majority of paving for most suppliers in the UK, and they will probably use the tail lift method. Please ensure you are able to take this type of delivery to kerbside only. The area to be offloaded onto must be flat and large enough, and have adequate access for a lorry. This method of delivery cannot be offloaded onto grass, gravel, loose ground, or on a steep gradient. Most of the national couriers have a driver only policy, so they often will require your assistance when offloading at your property when using the tail lift/pump truck method. Please ensure an able bodied person is available to help on the delivery day. Deliveries that need returning due to access problems will incur a charge to cover this cost, as will delays in offloading when the delivery vehicle arrives. These extra charges will be passed on at cost from the courier. Please inspect the goods as much as is possible for any damage on delivery. If you notice any damage, please sign the delivery note as damaged, this will help recover any losses through their insurance. Otherwise always sign the paperwork from the courier with the phrase - "UNCHECKED FOR DAMAGES" We cannot pursue claims for breakages if the paperwork is not correct.

Deliveries of less than one pack may incur a split pack charge, If you refuse the goods or are unable to accept the goods at the time, a re-delivery, or return charge will be made. These charges are set by the delivery network. Once your delivery date is confirmed we will do our utmost to ensure delivery is on the stated day. But please do not book any tradesmen or materials prior to your delivery, as we cannot be responsible for any costs you may have incurred if, in the unlikely event your delivery is late.

When a next day delivery is specified, the goods must be ordered before 11am, and then they are delivered on the next working day. Although 95% of next day deliveries arrive on time, this service is not guaranteed. In the unlikely event your delivery is late, if you decide not to accept, return delivery charges will apply.

Although we do our utmost to deliver your goods in perfect condition, at the lowest price, please note that it is not possible for any supplier to ship stone from overseas and then deliver to your door without the occasional scuff/scratch marks or sometimes, some small chips to the edges. We cannot be held responsible for every small imperfection.
